

**Declaration of Conformity
to Regulation (EU) 2019/1021
“POP Regulation”**

1. Regulation 2019/1021 of the European Parliament and of the Council concerns the production and use of persistent organic pollutants (POPs). These are organic substances that persistently remain in the environment, accumulate through the food chain and pose a risk to human health and the environment.
2. The regulation establishes control measures which include prohibitions of use and concentration limits for these substances as such or in a mixture or contained in an article.
3. According to the definition of “article” (European regulation REACH), the products we supply (billets, coils and bars) are considered ARTICLES without intentional release of substances.
4. Based on the knowledge of our production process and on the information received from our raw material suppliers we declare that no substance among those included in Annexes I (as amended by Regulation (EU) 2020/784), II, III and IV of the regulation is present in the articles produced and marketed by us.
5. The articles supplied by ORI MARTIN S.p.A. comply with Regulation (EU) 2019/1021 of the European Parliament and of the Council.
6. Any update of the information in our possession on raw materials and production cycle or of the European “POP” regulation will be carefully evaluated to ensure, also in the future, the conformity of our products.

This declaration of conformity is issued under the sole responsibility of ORI MARTIN S.p.A.

ORI MARTIN S.p.A.

Mr. Andrea Bonomi
Health & Safety Manager
